

OKLAHOMA MOBILITY MANAGEMENT

Weatherford Area Transportation Resources

Why Use a Mobility Navigator?

A mobility navigator serves as a guide and advocate, working to ensure that individuals with transportation challenges can access services that support their daily living needs and increase their quality of life. The Mobility Navigator's goal is to identify resources and educate citizens and community members on processes and programs that increase access to transportation.

ACCESS TO ESSENTIAL SERVICES:

Essential services such as healthcare, education, and employment opportunities might be spread out. Finding transportation solutions ensures that residents can access these vital services more easily.

SOCIAL CONNECTIVITY AND QUALITY OF LIFE:

Mobility isn't just about physical transportation; it's about connecting people. It plays a significant role in social connectivity by enabling individuals to access community centers, social events, and engage in communal activities.

TRANSPORTATION DIFFICULTIES??

WE DON'T PROVIDE TRANSPORTATION, BUT WE CAN HELP TRY TO FIND A SOLUTION
